Gerni

Why compromise

THE BENEFITS!

SAVING WATER

Gerni pressure cleaners draw water from a bucket or tank, making it legal to use under most water restrictions*

*Check regulations with your local water authorities

BETTER CLEANING RESULTS

The pressure generated by the pump in a Gerni Pressure cleaner is up to 25 times greater than the pressure of a garden hose

SAVING TIME

Depending on your application, a genuine Gerni pressure cleaner can reduce your cleaning time by up to 70%

HELPING THE ENVIRONMENT

The overall impact of using a pressure cleaner - using less water, fewer chemicals etc - all contribute to helping the environment

When cleaning patios, pavers, concrete, timber decks, fences, walls or any large flat area, the light weight Gerni Patio Cleaner is ideal. It gets the job done 10 times faster without the splash or overspray of other methods.

By attaching your patio cleaner to your Gerni pressure cleaner, the water pressure from the rotating nozzle allows the Patio Cleaner to hover over most surfaces while it is cleaning. The protective skirt around the base of the unit minimises any over spray.

The Patio Cleaner also caters for different surfaces with simple settings. A setting for hard surfaces such as concrete and another setting for softer surfaces such as timber.

AUTONOZZLE

Auto nozzle gently cleans painted surfaces with 60° fan jet

UNDERCHASSIS

Clean hard to reach places including undercarriages of vehicles, engine bays, and mudguards. Also perfect for gutter cleaning

ACCESSORIES

Used to clear debris from blocked pipes and drains. Suitable for downpipes. 15m

DRAIN CLEANER

Ideal for cleaning patios, pavers, concrete, timber decks, fences, walls or any large flat areas.

PATIO CLEANER

Wet sandblasting is ideal to quickly remove rust or paint from metal surfaces

SAND BLASTER

DETERGENTS

The cleaning power of your pressure cleaner can be enhanced by using the correct detergent. Gerni wash is ideal for cleaning shiny surfaces. It dries streak free and is gentle on the surface being cleaned. Ideal for cleaning all types of vehicles, boats, windows and painted areas around the house. Best results are achieved when the surface is wet before applying. Available in 1 litre, 5 litres and 25 litres.

AFTER SALES SERVICE

Gerni has an extensive national network of agents who have been trained to service your Gerni pressure cleaner.
